**SWISS
HARDWOODS**
Inspired by Nature

Home is not just a place, but something you always carry within yourself. Our family-owned company has long been deeply rooted in the green countryside of West Münsterland. This traditional region, known for its people with minds of their own, has always produced creative talents. This sense of belonging is also a source of strength — one that enables us to pursue far-sighted ideas with determination.

What makes Swiss Hardwoods

Engineered Wood Floors the ideal choice?

It's hard to beat the look and feel of engineered wooden flooring — timeless elegance that ages gracefully. Swiss Hardwoods floors are an exceptional investment, crafted from genuine European oak and finished with premium, market-leading coatings. With a variety of styles and wood grades available, we make it easy to find the perfect floor to match your taste and budget.

Eco-Friendly

Natural wooden flooring brings timeless beauty and warmth to any space. At Swiss Hardwoods, every plank is carefully selected for its grain and texture. Our real wood floors add character and invite the natural world indoors.

Creativity, Without the Wait

We know your time matters. While many flooring suppliers keep clients waiting six to seven weeks for products to arrive, Swiss Hardwoods delivers your flooring within just one week of placing your order — so your project keeps moving without delays.

Endless Possibilities

Swiss Hardwoods offers 10 stunning colours across 5 carefully selected ranges, each available in a variety of plank sizes. This makes it easy to choose the perfect engineered wood floor that matches your style — simple, elegant, and uncompromised.

Experience of Nature

Swiss Hardwoods brings you the finest engineered wood flooring, crafted from high-quality timber and finished to highlight its natural beauty. With options to suit a variety of budgets, our floors combine lasting value with the warmth and elegance of real wood.

Low Maintenance

Swiss Hardwoods floors are finished with high-quality natural oils that protect the wood while enhancing its beauty. This durable, easy-to-care-for finish keeps your floor looking elegant for years, without compromising its natural character.

Quality

Swiss Hardwoods floors are crafted from premium timber and finished with natural oils that protect and highlight the wood's beauty. The result is a durable, low-maintenance floor that stays elegant for years while preserving its authentic character.

Biological Durability	ČSN EN 335-1 ČSN EN 335-2	Class 1	Class 1	Without declaration - NPD Where a wood component is inaccessible or where the consequences of its failure are serious, it may be more appropriate to consider a more durable timber or a more intensive preservative treatment.

THE CONSTRUCTION OF ENGINEERING WOOD

Swiss Hardwoods floors are crafted using advanced engineered wood construction, giving you the beauty and feel of solid hardwood with added strength and stability. The top layer is premium hardwood, carefully selected for its grain and colour, while the layers beneath use high-quality softwoods arranged at right angles for durability and resistance to movement.

This layered construction not only makes our floors more environmentally friendly by using less slow-growing hardwood, it also ensures they remain stable, resist warping or cupping, and stay perfectly fitted over time. The result is a floor that combines natural elegance, long-lasting performance, and a responsible approach to resources.

AVAILABLE PLANK SIZE

Elegance

Experience the natural warmth and beauty of real wood under your feet with Swiss Hardwoods' Elegance Single Plank Collection. Each plank's surface is crafted from a single piece of premium wood, showcasing subtle grain and natural texture while keeping colour variations and knots minimal for a refined look. The deep, satisfying sound as you walk across adds to the sensory experience, while the naturally finished surface keeps indoor air fresh. Designed to be timeless and easy to live with, Elegance floors bring lasting style, comfort, and character to any space.

Dimension: 150 x 1860 x 15 / 4 mm

Construction 3 - Layer

Decorum

The Decorum Collection from Swiss Hardwoods brings together the best of natural warmth, subtle charm, and soft elegance in one harmonious range. Its warm colours, from golden tones to delicate browns, create a welcoming and balanced atmosphere in any space. Extra-wide planks and a natural oiled finish add depth, texture, and the authentic feel of real wood. Durable and low-maintenance, Decorum floors are perfect for everything from busy hotel foyers to cozy lounges, combining timeless beauty with practical performance.

Dimension: 189 x 1860 x 15 / 4 mm

Construction 3 - Layer

Pinnacle

The Pinnacle Collection is the flagship of Swiss Hardwoods, crafted from the finest clean-grade timber with virtually no knots and beautifully consistent grains. Its extra-wide single-strip planks, measuring 240mm by 2200mm, make a bold statement, instantly showcasing quality and elegance the moment you enter a room. Now available in 22 stunning colours, ranging from light to dark, including options with subtle golden grains, Pinnacle floors offer unmatched sophistication, depth, and visual impact — a true centerpiece for any space.

Dimension: 240 x 2200 x 15 / 4 mm

Construction 3 - Layer

Eternal Herringbone

The Eternal Range from Swiss Hardwoods brings the timeless elegance of Herringbone flooring into modern spaces. Inspired by a centuries-old design, beloved from ancient civilizations to European castles, this pattern combines stability, strength, and striking visual appeal. With 22 carefully curated colours that highlight the natural variation and beauty of the solid oak top layer, Eternal floors suit both classic and contemporary interiors. Sharp lines, subtle tones, and expert craftsmanship make this a floor that truly lasts a lifetime.

Dimension: 90 x 600 x 15 / 3 mm

Construction Semi Solid

Chevron

The Chevron Collection from Swiss Hardwoods celebrates a classic, centuries-old flooring design that's enjoying a modern revival. Each plank is cut at an angle to create a striking zigzag pattern, often called a fishbone design, making a bold statement in any room. Perfectly pre-finished in 22 carefully selected colours, each plank is precisely cut for a flawless fit. While installation takes a little longer than a traditional floor, the result is a timeless, elegant surface that will be admired and enjoyed for decades.

GLUE DOWN

Classic Grade wooden flooring is carefully cut from the heart of the log, selected for its subtle grain, consistent texture, and minimal colour variation. Knots and sap are rare, and any small natural marks are discreetly filled to match the wood's tone. Classic Grade is ideal for those seeking a refined, evenly toned parquet floor that combines timeless elegance with natural beauty.

The natural variations found in wood mean that differences in colour, grain, and pattern are to be expected. These variations are a normal feature of natural and manufactured products, adding to their distinctive and authentic character.

We recommend viewing a larger physical sample of your chosen product before placing an order to ensure it meets your expectations.

As part of our ongoing commitment to quality and innovation, we reserve the right to update, modify, or discontinue products, patterns, or textures without prior notice.
