

Monolith

Aged and Reclaimed Extra Wide Plank

Inspired by Nature!

Easy to repair; For any accidental damages or scratches that appear, unlike lacquered floors, with an oiled floor there's no need to sand and refinish the entire floor. A 'spot repair' at the point where the scratch is and a small amount of oil is applied to the affected area. Very quick and easy to repair.

Durability; Oil penetrates deep into the wood providing long-term protection against everyday use while also leaving a protective layer on the surface to protect the floor against water, wine, and other irritants.

Natural ingredients; All Swiss Hardwoods floors use Rubio Monocoat® Fire Retardant Oil as our surface coating. Plant based with no chemicals and is 100% VOC free, safe to use and great for the environment.

Inspired by Nature!

Nordic White Walnut

SH-PIN-MON-01

This floor is inspired by the Scandinavian design, a design movement characterized by simplicity, minimalism and functionality that emerged in the early 20th century, in the five Nordic countries. In a world where consumerism is the name of the Game, Swiss Hardwoods, Nordic White-Walnut-European Oak-Single Strip Engineered wood floor is a breath of freshness. If the Scandinavian decor is what appeals to you and you don't know where to begin, start by bringing in the minimalist aspect to your aesthetic, with the clean beauty of our Nordic White-Walnut floor.

Alpaca White Ash Grey

SH-PIN-MON-02

When your space is rather dull, a good way to add more character is by injecting warm through textures. Swiss Hardwoods-Monolith collection has a huge Range of Rustic and Distressed effect wood floors to match your requirement. Alpaca White-Ash Grey-European Oak-Single Strip with its brushed wood effect and deep wood grains adds some personality into your living space. Distressed engineered wood floor boards give you the impression of a life lived and matured gracefully. This interesting technique caters to a rather tasteful and sophisticated decor choice. Not to forget the beauty and elegance of matt finish, the warm and durability of the oiled surface floor.

Antique Beige - Walnut

SH-PIN-MON-03

In today's modern world, where perfection is the name of the game, the simplicity, rustic beauty and distressed effect of Swiss Hardwoods-Antique Beige-Walnut is such a refreshing look. A light-coloured floor is a good trick to keep your space looking uncluttered and spacious. The imperfections on this plank add character and personality to your living space. The matt finish and oiled surface of this floor make it rather easy to form a warm and inviting decor as the aged floor gives the impression of a place that has been lived in and turns your house into a home. The uni-clic mechanism of this plank allows for quick and easy installation. At Swiss Hardwoods we use Rubio Monocoat® Fire Retardant Oil as our surface coating. This natural oil is plant based with no chemicals and is 100% VOC free, safe to use and great for the environment. Hence you can rest assured that you are truly closer to Nature.

Chocolate

SH-PIN-MON-06

If your style is less minimalist, this rich Chocolate floor from Swiss Hardwoods-Monolith Collection can effectively work in your home or office setup. The dark tone adds drama to your space and plays down the not so important aspects of your home interiors that you don't want to highlight. One could easily add in some lively and bright whites to the interior to balance the visual heaviness this floor brings.

With its dark and rustic effect, this floor creates a space that is modern and chic yet so warm and welcoming. This floor natural beauty is enhanced by using Rubio Monocoat® Oil. An oil finished floor provides protection from both the inside and outside and prevents water or other irritants getting into the wood.

Charcoal

SH-PIN-MON-07

Light colours and shades have a soothing effect on your space and will feel more spacious and airier. While wooden floors are pleasing to the eye and karmic to the soul, Swiss Hardwoods White-Charcoal contributes to a calm and centred effect in your living area. In fact, this is a perfect floor for a space done in a traditional Scandinavian style. With basic furniture in dark wood with interesting vibrant accessories will be a perfect contrast to this floor. The floors oiled surface and matt finish enhances its natural beauty and complements your Nordic inspired space. Rubio Monocoat® Oil is Plant based with no chemicals and is 100% VOC free. The construction of this engineered floor is made with eco-friendly 100% recyclable materials.

Bourbon
SH-PIN-MON-09

Medium-dark flooring radiate a refined elegance. Dark floors may really brighten up your room when coupled with bright walls and the proper colored décor pieces. Contrast your floor with brighter, cleaner colors in your furniture, walls, and ceiling to help balance your area. It's as if the Swiss Hardwoods-Monolith Bourbon-Single Strip-European Oak floor was specifically built for straight-shooters who view the world with wide eyes and clarity. At Swiss Hardwoods, we believe that beauty comes from inside. We utilize Rubio Monocoat® Oils for our surface treatments instead of lacquers to enhance the natural beauty of our flooring.

MAINTENANCE

- Extremely quick and clean installation
- Installation without glue, hammer or tapping block
- Strong connections at the top and longitudinal edges

When laying a floating floor, you can walk on it during and immediately after installation. After laying, maintaining a temperature of between 18 °C and 24 °C and a relative air humidity level of between 45% and 65% is crucial to the performance of the floor.

During the summer months the air in a room is usually humid for this reason, it is strongly advised to maintain constant AC to obtain consistent humidity levels, the room should always be kept well ventilated.

Please follow the information and advice of the glue manufacturer regarding drying time.

After laying, maintaining a temperature of between 18 °C and 24 °C and a relative air humidity level of between 45% and 65% is crucial to the performance of the floor. During the summer months the air in a room is usually humid for this reason, it is strongly advised to maintain constant AC to obtain consistent humidity levels, the room should always be kept well ventilated.

Dry maintenance is possible with microfiber cloth or with a vacuum cleaner. Make sure it is equipped with soft wheels and a special parquet brush to avoid scratches on your floor. Never use a steam cleaner.

Direct wet maintenance is absolutely forbidden, when cleaning with a mop all excess water must be fully expelled from the mop, only a damp mop can be used while cleaning the floor with the recommended products.

All spillages must be dealt with immediately to prevent permanent damage to the floor. Remove any water or liquids by blotting the area with an absorbent towel, do not rub in a circular motion and spread the spillage further.

Protect the bottom of furniture and chair legs with strong felt caps to prevent scratching the floor.

Avoid bringing dirt, water and sand indoors by providing a suitable floor mat at the entrance door. Use chairs and seats with soft casters Type W (EN 12590) that are suitable for a wooden floor or use a suitable desk mat.

Lift furniture and never drag it over the floor.

As with any natural product, sunlight can cause colour variations in the wood's surface.

Cleaning

- Extremely quick and clean installation
- Installation without glue, hammer or tapping block
- Strong connections at the top and longitudinal edges

During the manufacturing process Swiss Hardwoods use the oils from the Belgian company Rubio Monocoat to colour and protect the finished flooring. For this reason, Swiss Hardwoods only recommend the cleaning products that are manufactured by Rubio Monocoat for cleaning your floor.

Please contact your local Swiss hardwood distributor to purchase all the available Rubio Monocoat cleaning and maintenance products that are listed below.

Soap Concentrate

To be diluted via dilution control 100 parts clean water to 1 part Rubio Soap. When dilution is used in a spray bottle for spot cleaning, is referred to as Surface Care Spray. When dilution is used in an approved scrubbing machine or in a -2 bucket damp mop system, it is referred to as Rubio Soap Dilution.

Surface Care Spray

Mixture of 100 parts clean water and 1 part Rubio Soap, most commonly used in a spray bottle for the cleaning of spot stains.

Refresh (aerosol version)

Serves two purposes:

1. Excellent at cleaning stubborn stains, especially chewing gum;
2. Repairs small areas of damaged finish (i.e. from application of a solvent such as acetone)

Universal Maintenance Oil

Repairs worn or rough finish where the color is still intact.

Oil Plus 2C

Re-oils areas of worn or damaged finish. Available in over 40 colors. Colors are mixable. Formula will vary according to color of the chosen floor.

Monolith

Aged and Reclaimed Extra Wide Plank

The random nature of wood and other natural material, from which our designs are taken, means that significant colour and desing variation is normal and indeed enhances the natural look of Swiss hardwoods Products.

We strongly advise that before ordering material, you see a physical sample of your chosen products.

The policy of the company is one of countinous development and improvement. We reserve the right to add or delete products from the range or to change patterns and/or textures without prior notification.
